secretSpeech

stands for rationality and vigorously opposes
every kind of religion, spirituality and superstition
whose only goals are to strip reality
of its objectivity and truthfulness.

The Lucifer Conspiracy

is dedicated to the great minds
that influenced my way of perceiving the world
including everything within and everything beyond,
most notably **Arthur C. Clarke** for opening my eyes
about mankind's potential and being at the origin
of this album's title, **Carl Sagan** for making
awe inspiring science available to the masses,
and **Richard Dawkins** for convincing me
to give up on cowardly agnosticism
in favour of adopting unadulterated atheism.
